## UI/UX Designer & Developer

10813 Satinwood Circle Orlando, FL 32825  
407-362-8865 christine@hocanimation.com  
web: [linkedin.com/in/hocanimation](https://www.linkedin.com/in/hocanimation)

### PROFILE

Skilled and well-rounded web developer with 5+ years' experience in a diverse set of design and development disciplines. Quick study when it comes to embracing new web technology.

### AREAS OF EXPERTISE

**Programming/Web:** HTML, CSS, XML, Spring MVC, React/Flux, ES6, AngularJS, Sass, JavaScript, Actionscript, Java, ASP.NET C#, IIS, MS SQL, Web REST API, Google Maps API, EPiServer CMS, WordPress CMS. Some experience with XSLT, PHP, MySQL, and Apache.

**Build/Configuration/Testing:** Grunt, Maven, Compass, Jenkins, Chef, Selenium, Cucumber, SOAP UI, Karma, Jasmine, Mockito, Junit, Apache JMeter

**Software:** IntelliJ IDEA Ultimate Edition, VMware vCloud Application Director, vRealize, Microsoft Visual Studio, SharePoint Designer, Adobe Creative Suite: Photoshop, Dreamweaver, Flash, Media Encoder, After Effects, Premiere Pro, and Illustrator.

### WORK EXPERIENCE

#### Software Developer

NCR Corporation

October 2014 - Present (6 months) Maitland, FL

- Design and build robust web applications to help developers build business-oriented services and to help manage the platform.
- Assist in the design of multiple UI interfaces utilizing API Web Services built by the platform team to showcase functionality and real world use of the API services available. In addition, implement functionality for single page web applications (SPAs) with the use of HTML5, CSS3, JavaScript, Spring MVC Framework, React/Flux, ES6, AngularJS, Sass, Java, and REST API.
- Deploy projects through the use of modern build tools including Grunt, Maven and Compass for configuring, compiling, and minifying files for a production environment.
- Manage configuration of versioned virtual deployment environments using Jenkins and Chef. Deploy web applications using VMware vCloud Application Director/vRealize.
- Collaborate on a UI team with Agile/Scrum methodology to improve software functionality, create new features, and fix bugs for a proprietary, cloud based, platform.
- Incorporate automation acceptance testing with Selenium and Cucumber testing tools; incorporate behavior driven unit tests with Karma, Jasmine, Mockito, and Junit; and implement performance testing through the use of Apache Jmeter.

#### UX Developer for NCR Corporation (Contract)

InSight Global, Inc.

July 2014 - October 2014 (3 months) Orlando, FL

- Provide UI/UX design and develop functionality for SaaS product in an Agile/Scrum team.
- Improve software functionality, create new features, and fix bugs for a cloud based, platform.
- Implement Selenium/Java acceptance tests and JavaScript/Karma/Jasmine unit tests

## **Senior Web Developer**

Optos, Inc.

August 2008 – June 2014 (5 years 11 months) Marlborough, MA

- Redesigned company's public website, [www.optos.com](http://www.optos.com), to enhance and create a stronger online presence in the medical device field with the use of HTML5, CSS3, EPiServer CMS, ASP.NET C# and SQL Server.
- Implemented a "Find a Doctor" locator by creating custom tables and views for querying user data utilizing MS SQL Server for database. Customized EPiServer CMS web application using ASP.NET C# and Google Maps API to develop functionality for locator so that patients can easily find doctors in their area who utilize our medical device and products.
- Upgraded SharePoint and redesigned the look of internal company portal for better user experience for in-house and field staff using SharePoint Designer and ASP.NET C#.
- Launched a Distributor Portal to provide distributors access to software downloads, brochures, and product manuals to support our customers using EPiServer CMS and ASP.NET C#.
- Migrated Investor Relations Annual Report and other Consumer sites to be in-house for cost savings and maintainability in-house utilizing PHP, MySQL, Drupal CMS and WordPress CMS.
- Maintenance of all global, multi-language external and internal web applications in all aspects of infrastructure, content, and media using various Adobe Creative Suite products.

## **Multimedia Designer**

InVision Learning LLC

August 2006 – July 2008 (2 years) Westborough, MA

- Designed user interfaces for e-Learning modules and created course templates, simulations, 3D animations and other media content for clients' custom courses using Photoshop, Illustrator, After Effects, SoundBooth, 3DStudio Max, Flash and Actionscript.
- Collaborated with colleagues to develop full courses to completion creating various icons, buttons, and animations while integrating interactivity with the heavy use of Actionscript.
- Designed and implement custom front-end web portal solutions for clients to launch their LMS courses which track user progress of courses to ensure completion of modules with HTML/CSS.
- Designed and maintain company website and print collateral using various Adobe Creative Suite products.

## **Creative Marketing Manager**

Multicultural Foodservice & Hospitality Alliance (MFHA)

April 2004 – March 2006 (2 years) Providence, RI

- Strategized and managed MFHA's collateral design and video productions, including style guidelines and production calendar in coordination with Marketing Director.
- Designed and created MFHA's marketing print collateral while providing art direction to freelance designers, printers, and production companies to ensure cost effective, high quality collateral at the annual conferences.
- Created and maintained MFHA's website, content, e-commerce functions and image archives.

## **EDUCATION**
